*You've had a Lakewood guitar for a long time and now you cannot find it within our guitar range? Maybe you are luckier here. . . This is a list of older guitar models that have been taken out of the series program. Most of them are still available via our customshop.*

*How is it possible that such a small instrument can produce such a big sound? The C-52 Edition 2022 does not, of course, invert the laws of physics, but it does show how knowledge of construction, workmanship and woods can result in maximum sound culture and volume.*
